It has been more than 100 years that County Health Departments have been serving our communities. The mission of the Ware County Health Department is to protect and promote health, and prevent disease and injury. Our health is important to them. The staff is well trained to provide preventive health services to the Waycross community.

Services provided by the Public Health staff include immunizations for children and adults, immunizations for International Travel, birth and death certificates, nutrition counseling, WIC services for infants, children, pregnant and breast-feeding women, family planning services, services for infectious diseases, inspections for infant and child car safety seats, septic tank inspections, public swimming pool inspections, rabies control, and restaurant inspections.
